ments.

The resignation of Dr. E. M. Chapin, who has held that position for many years, was accepted, and Mr. J. J. Burroughs was appointed to succeed him. Messrs. Nourse and Taylor, superintendent of roads, were discharged and George N. Beall appointed to perform the duties heretofore discharged by Messrs. Nourse and Taylor jointly.

The office of Superintendent of Street Improvements is a very important one and has been ably filled for years by Dr. Chapin, whose advanced age, however, has impaired his activity and induced him to resign.

Mr. Burroughs, who succeeds Dr. Chapin, is one of the most throughly competent and energetic men who has ever served the District. The filling up of the old canal, the macadamizing of the Seventh-street road and of Eleventh street southeast, and many other of the most important improvements have been accomplished under his direction much more rapidly and economically than by contract work or any of the other District supervisors. Mr. Burroughs will prove a very successful Superintendent of Street Improvements.

The Fire Board Abolished.

The Fire Board Abolished.

The District Commissioners yesterday afternoon issued an order abolishing the Board of Fire Commissioners. Congress made no appropriation for the continuance of the board, and although the members begged to be allowed to continue to serve without compensation, the Commissioners, after fully investigating the matter, ascertained that the board was utterly useless, and rather a drawback to the service, and decided to abolish it.
